

MYWEBSpace: FILEZILLA SECURE FTP (FTPs) SETUP

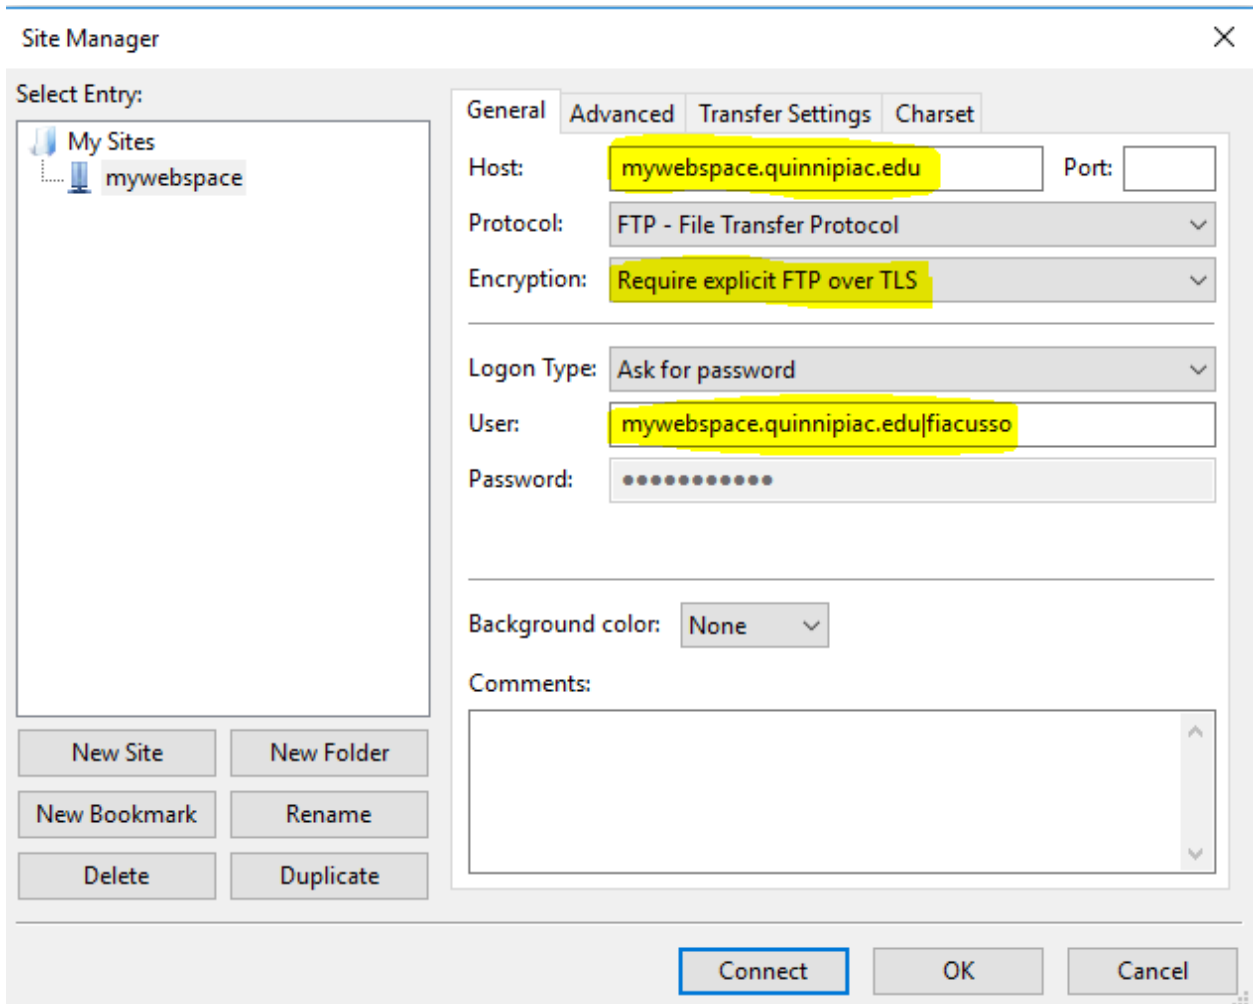

Introduction

These instructions will instruct you on preconfiguring Secure FTP (FTPs) access to your personal WebSpace within FileZilla (PC/Mac).

1. Download FileZilla (PC/Mac) > Open FileZilla <https://filezilla-project.org/>
2. Go to File -> Site Manager...

3. Select 'New Site' and label it 'mywebspace'.

4. In reference to the image above, please fill out the following fields.

- **Host:** mywebspace.quinnipiac.edu
- **Encryption:** Require explicit FTP over TLS
- **Logon Type:** Ask for password
- **User:** mywebspace.quinnipiac.edu|QUUsername (there is a pipe before you enter your QU Network Username)

5. Select 'Connect' to connect and enter your 'QU Network Password'.

6. You should now see a directory listing of your files....
